Allergies in Family?		Preferences, Special Needs	

This Agreement is for purchase of a puppy from Timshell Farm, located in Fredericksburg, Ohio. Puppies are bred for using only healthy parent dogs that are tested and/or examined as appropriate and found to be free from hip dysplasia and other genetic defects, with "issue-free" temperaments.

Security Deposit, Terms and Fees

Non-refundable (except for reasons below) security deposit to reserve a puppy for purchase is $300. Buyer will specify which type and size puppy, and estimated litter date desired; and state male/female and color/coat preferences. If the male/female choice cannot be met in the planned litter, then buyer agrees to move their reservation to an upcoming litter of their choice. Buyer agrees to be flexible and accept coat color available and acknowledges that seller cannot guarantee size of puppy when grown. The $300.00 deposit will reserve your puppy until two weeks after the puppy is born and at that time, the balance is due in full. (Deposit is subtracted from purchase price.) Puppies will go to new homes no sooner than eight weeks of age. Wait lists will be kept in a first-come, first-serve order for the expected litters. Purchaser's name will be put on waiting list upon receipt of deposit. If there are not enough puppies in the litter, or if an expected litter does not arrive as anticipated, then the buyer's name will be placed on the list for the next available litter. Sellers will provide Buyers with a puppy within one year of receipt of Buyer's deposit, and if this fails to occur, the security deposit will be refunded. Purchasers agree that they are buying a puppy "sight unseen". Puppies will be selected according to needs, such as allergy-affected families getting the curliest-coat puppies, etc. as appropriate. Purchasers agree to be flexible and work with sellers in matching people with puppies. The grown-dog weights given are estimates and cannot be guaranteed. Buyer acknowledges he/she is aware of the possibility that their puppy may not fall within these weight ranges when grown. Because this is a cross breed and is not a "standardized breed" there are no guarantees for size, weight or coat types when grown. Sellers will endeavor to make the best match possible between puppies and people, using the preferences stated in this Agreement. Buyer will never be expected to take a puppy not wanted. *Special Note: We reserve the option to select a puppy from a litter after it has arrived, for "breeder's pick" for our breeding program.* Should a puppy require boarding after 8 weeks of age, buyer agrees to schedule for this ahead of pickup date. Boarding will include the next immunization(s), treatments and continued, daily, hands-on socialization. Specialized training services are available with Ohio staff.

Puppy purchase includes the following:

- Puppy folder with complete health record (list of vaccinations, deworming and diet instructions);
- Microchip Registration in buyer's name
- 3-year, written health guarantee against genetic defects;
- Sample food packs of puppy food; and
- Continued breeder support for the life of the dog.

Puppy Transportation

Puppies may be picked up at our home when they are 8 weeks of age, with scheduled pick-up time. We will also deliver your puppy to you, at an Ohio airport. Delivery fee to Ohio airport is $200. Or we will hand-carry your puppy to you, flown on board the plane to your home city. The cost for this service can vary from $450 to $1250. This delivery service must be scheduled in advance and will require pre-payment. Shipping requirements set forth by the airlines as well as USDA will be strictly adhered to.

Procedure to Secure Puppy

Complete the Buyer's Agreement and attach to e-mail to timshellfarm@gmail.com and submit $300 deposit to reserve your spot on a litter list. Puppy selection is conducted by date of deposit. We will send updates about the progress and the arrival of the litter. Once the litter arrives, puppy photos and updates are sent out weekly, so that the families can watch the puppies grow. Puppy selections take place either the Saturday puppies turn 8 weeks old, if born on a Saturday, or the Saturday after the pups turn 8 weeks old. Special Note: We reserve the option to select a puppy from a litter for "breeder's pick" breeding program.

Health Guarantee

Timshell Farm guarantees your puppy to be free from infectious diseases for 4 days after puppy leaves our premises and guarantees puppies to be free from genetic problems for up to 3 years of age. Puppy will leave our facility clean, and in good general health. De-wormings and immunizations set forth by our veterinarians will have been completed as listed on the Puppy Health Record (in the Puppy Folder). It is generally recognized that intestinal parasites and ear mites are common in puppies, and part of a puppy's early development, but we make every effort to prevent such parasites. Often, the stress of change and travel can cause intestinal parasites to emerge after the puppy has left its mother. Buyer agrees to continue de-parasitization testing and treatment (if necessary) with their veterinarian (see below). De-worming will have been done at age 2, 4, 6, and 8 weeks of age (pyrantel pamoate, Panacur or Safeguard) and the puppy's first immunization will be administered at 7 weeks of age.

- New owners must take their puppy to their veterinarian within 4 days of receiving pup for examination, testing for worms, treatment for worms if necessary, and to schedule ongoing immunizations. Failure to have the puppy examined by vet within four days of date puppy was received by buyer, or if purchaser fails to provide required immunizations or de-wormings, this health guarantee will be void. If the purchaser's veterinarian finds the puppy to be in poor health, the veterinarian's written description of the problems must be provided, dated within 4 days of the date purchaser received their puppy. With documentation by vet if a genetic defect is present, purchaser will be refunded price of puppy or given a replacement puppy. We will pay veterinarian fees up to the purchase price of the animal after vet has documented genetic defect present. Cost of exams and tests are responsibility of buyer. Seller is not responsible for the cost of treatment of worms or parasites.

- Genetic health faults are covered by this guarantee for 3 years. A written examination from veterinarian must state that genetic defect exists and be accompanied by x-rays and other testing as appropriate. Buyer must contact seller for consultation, PRIOR to treatments or surgery for genetic defects or other health problems, to review all possible treatments. Buyer must provide written diagnosis from examining vet and receipts.

- New owners agree to keep their puppy at home and away from other dogs, public places, parks and will use care in allowing others from outside their home to pet or touch the puppy. This protects the puppy from exposure to parvovirus and other infectious illnesses. New owners will not enroll the puppy in obedience training classes or take the puppy outside the home/back yard, until all immunizations are completed.

- Purchaser agrees to spay or neuter the puppy at 5.5 months of age, no later. Purchaser agrees puppy will not be used for breeding. Buyer agrees to send proof of spay or neutering to the sellers. Failure to spay or neuter at 5.5 months of age will result in cancellation of health guarantee. Frontiers in Veterinary Science have extensive studies concluding smaller breeds have no ill effects from early desexing.

- Buyer must keep growing puppy at a healthy weight appropriate for its size; must prevent harmful exercise that strains or negatively impacts joints; must feed their puppy a nutritious and quality brand of dog food that is specifically formulated for the particular type of dog.

- **TEMPERAMENT:** Buyer understands that puppies nip, chew, bark, and jump up. Buyer agrees to train the puppy to correct these behaviors and to be responsible for the puppy's ongoing socialization and behavioral training. Buyers inexperienced with raising puppies, and families with children under 6 years of age agree to seek professional help from a certified, in-home trainer within ten days of the puppy's arrival into the home. All buyers agree to consult with a professional trainer should there be continued negative behaviors. Seller does not guarantee for temperament.

Sellers and Purchasers agree to abide by the terms of this Agreement. Health guarantee is made part of the signed document.
